Why Choose PC Focus for your training needs?

Independently Owned and Operated - PC Focus is independently owned, therefore there are no layers of management to filter through before decisions can be made that will make the training center a better place. Liz spends time in the classroom which offers her the opportunity to feel and test the climate of the classroom, equipment, courseware, instructors, etc.

Diversified in services offered - Classroom and "one-on-one" Instructor-led and Internet (live, hands-on collaborative) software training;. "Live" recorded custom tutorials, database development; and more. mini-seminars and consulting. We also offer a wide variety of application software classes at many skill levels.

Surveys/Assessments - We will provide a custom online survey for your employees to assess their individual skills needed to do their job and/or be promoted for other jobs. The surveys will be compiled and a report provided to you with the results.

Support - E-mail support is provided up to 30 days from the day of the class.

Independent Contractors - Our contract programmers and instructors are experienced professionals who can provide a product in a timely and efficient way. We use the best.

Customer Service - We make every attempt to satisfy our customers at all costs. Customer Service is everything! We do not take shortcuts in our facilities, instructors or curriculum. We guarantee you that you will find quality in every service that we offer.

Website - Our site provides information on all our services, and printable course outlines.

Customization and Flexibility - We can customize any class and can be flexible in the delivery and scheduling of custom courses.

100% Guarantee - PC Focus will guarantee all training and development services 100%. Our guarantee, quality, facilities, flexibility, and commitment to the classroom and our customers make us stand head and shoulders above the rest!
